 - Service Request End of Year Wrap Up – Jennifer Miller
- Farewell

Let's

TRANSFORM

Education

Submitted Questions

- What are some of the Cyber Security Opportunities out there that are available for district employees to join that team and what are the requirements? [Jennifer](#)
- On Friday we had several teachers not able to print the Student Detail report in Gradebook. So our Gradebook Liaison sent out an instruction sheet that said, "please follow the directions attached sent to me by our GB gurus." This was to have the teacher remove the "webPass - Chrome Extension" that the teachers access their textbooks online. Is this the correct procedures the district wants us to follow? [You will not need to install Web Pass . " Select Cancel"](#)

Submitted Questions

- EAC - why can't we access from home anymore? Many of us use it from home for tax purposes, leave information, contract, payroll, etc. Many of our employees need this information when not at school. Especially with summer upon us. (Example: you are out buying a car and need VOE/pay stub.)? Jennifer
- The AAS department would like to know if there are plans for them to get new laptops, just as the admins did last summer? I checked the site "2014 Bond Referendum/ Instructional Technology" and could not find any info regarding AAS getting replacements. The laptops will be replaced if they are five year old
- Will there be replacement laptops for Dell E5410 Wireless Laptop Carts? Will there be replacement laptops for Dell E5410 CATE Laptop Carts? Will there be replacement laptops for Dell E5410 Wireless Laptop Carts? Will there be replacement laptops for Dell E6400 HS ENG MULT Laptop Carts? What is the process of inventory, do we have these picked up and condemn? Yes, Carts will be replaced by content. Not sure when waiting on the coordinators to tell me when they want them replaced.

Thank You

We would like to thank you all for the support that you have provided to your campuses and the district as a whole making this a great year. The beginning and the middle of the school year presented us with a few challenges due to weather conditions, but you all were able to maintain service at a high level. We have accomplished a lot this school year in which this would not have been possible without your dedication and focus . What a great year! Thank you all for your support and you are deeply appreciated. Have a great summer to those who are taking time off this summer. Take care and be safe. If you are working during the summer let's keep the momentum going and carry it over to the next school year!

Thank You

We would like to thank you all for the support that you have provided to your campuses. Your support of the campuses is not only evident in the data, some of which was presented earlier but in other ways, like the success of testing department. Other successful programs in your buildings like iStation, CATE, robot clubs, and Kajeet take home devices. We have seen where technology is making things happen and you are a big reason that things happen at the schools. Your support of the wide variety of hardware, software and people is amazing. Thanks for taking pride in what you do!!! Have a good summer.
