Eh
Yes - 16

YES, GREAT MEETING!
Yes it did

Detail the most beneficial aspects of the most recent meeting.

level 3 training announcememnt

informant

Updates on new hardware/software/classes.

Inventory questions answered, end of year procedures

End of Year and summer issues

small group discussion

Info shared by Frankie, Leonard, Frank, Doug, You

End of year prep information

It was all good

Making sure we get our work times in and why

I always enjoy the Small Group Sessions

future projects

Most of the Wireless, Network closets,and New Equipment in place.

Building confidence to tackle any situation with the knowledge to diagnose repair and communicate properly.

During small group, when they told us about the Windows 10 course.

Seeing what technology has been able to do so far on their end of the bond.

Any information that helps us out is always appreciated.

Identify any technology-focused issues your building is experiencing.

Issues with my.cfid.net

Still have some dock and prometean sound issues.

none - 3

General Issues; nothing stands out

Getting used to new Yogas for those that have them

The signal strength at our end of building.

eschool issues through Chrome

Sound Drivers on Promethean and Docks. Monitors' 'too small'.

Just needing to know what is getting replaced for next year so that I know what to have p/u asap.

Suggestions, thoughts, ideas?

DON'T WORRY BE HAPPY!!!

offer more certifications through CFISD

I liked the mtg room; good alternative

None

Request healthier snacks.

Is Falcon on the list to update/upgrade signal?

Stop talking about the Bond

Question and answer is always good to keep us up to date with ideas we may not have thought of but are good to know.

How do we get people at the meeting not to check emails, tickets and phones during the meeing?

How effective was the meeting?
