

Goal 2

Four Cisco Switch Conversions Completed at the Elementary Level

Elementary Switch Conversions This Week:

Jowell ES – Converted on Monday, March 7, 2016

Hancock ES – Converted on Monday, March 7, 2016

Adam ES – Converted on Tuesday, March 8, 2016

Wilson ES - Converted on Wednesday, March 9, 2016

Each week at least four elementary campuses have their switching infrastructure upgraded to the new district Cisco standard. The schedule typically has one campus per quadrant each week. Following this type of schedule allows each quadrant leader:

Thomas Hollister, Elizabeth Montes, Tony Rogers, and **Anna Senties** to focus on one campus upgrade per week, then the remainder of the week is spent resolving operational issues. Pictured right is the MDF at Jowell ES after the conversion was completed.
