DEVICE IMAGING AND INTEGRATION

Pictures from DII in Action

DII worked as usual the week of **March 7-11th**. They continued working on LanDesk, servicing iSupport tickets and supporting their customers. **Josh Zhang** held a App-V training for members of the DII Team in preparation for migration from ZAVs. Here are pictures from that week.

20,000 ADVANCE AGENTS DEPLOYED

SUCCESS!

DEVICE IMAGING AND INTEGRATION

Career and Technology Education was hosting a TSA Competition at the Exhibit Center on March 10th and March 11th. The Device Imaging and Integration team was called in to find a QR Reader that could be installed on the Helix laptops. **Nancy Grella** and **Josh Zhang** found a web QR Reader that could be used. This reader would be used to read a QR Code that linked to a database that registered the entry as well as a QR code that would bring up a judging form. **Nancy Grella, Anthony Melton** and **Austen Chang** went to the Exhibit Center and worked on the cart of laptops adding the web link to the home page of each laptop and setting up a login account for the judges.
