DEVICE IMAGING AND INTEGRATION IMAGING AT ELEMENTARY SCHOOLS

DII team members and Prime find carts in different states. Sometime the carts are so messy with wires hanging all over the place that it is hard for kids to use. This week DII found one such cart, pictured below. DII team members **Derly Buentello**, **Austen Chang** and **Anthony Melton** took the time to untangle and reroute every power cord. Going the extra mile! Way To Go Team!!
