

# DEVICE IMAGING AND INTEGRATION Has CLASS

**DII Team** has class!! Yes, DII team members had LANDESK class this week. All of the DII team received formal LANDESK training. **Keith Oliverson** led the training. The team covered, Design, WorkSpace, Patch Management, Software Licensing, Remote Control, and discussed best practices. **Daniel Serwinek** said, "This is good training. I am able to try what I learned and see it work." **Larry Barrios**, said "This training has filled in the holes. Things that I was unsure of, now make sense." **Josh, Austen, Anthony, Lillie, Michelle, Daniel,** and **Derly** learned a lot during this week of classes.

Larry, Anthony, Derly, Daniel, Austen,  
Michelle and Josh

# DEVICE IMAGING AND INTEGRATION

## Getting Schooled

The **Customer Care Center** also got schooled in LANDESK. CCC attended the LANDESK training on Friday with DII. The focus for both teams that day was Remote Control. The teams practiced remotely controlling computers using different methods.

Susie, Amanda, Lillie, Arlicia, and Keith

The class was so good even Frankie Jackson stopped by to join in the fun of learning..
