

DEVICE IMAGING AND INTEGRATION IVANTI / LANDESK PRESENTATION

Josh Zhang, Billy Nelson, Lillie Swearingen, and Don Landers

This week, **IVANTI** (formerly LANDESK) and **CFISD** hosted an event at the Berry Center. Many subjects were covered, including the CFISD's successful conversion to LANDESK, the XTRACTION tool, IVANTI Asset Management and Security, AppSense, and how CFISD uses the LANDESK Console and Workspaces in our day-to-day environment. **Larry Barrios**, **Josh Zhang**, and **Lillie Swearingen** presented on XTRACTION (Josh), LANDESK conversion (Larry) and CFISD uses and procedures (Lillie & Josh), then fielded questions from the audience.

Larry Presenting

After the presentation, **Larry**, **Josh**, and **Lillie** met with the representatives from **Humble ISD**. Humble is currently using Novell ZENWorks and are experiencing the same issues CFISD saw with the system. They are considering moving to LANDESK and asked more questions regarding our deployment and satisfaction with the product.

DEVICE IMAGING AND INTEGRATION FFA SHOW

Anthony and Austen with Dr. Henry

Anthony Melton supports the FFA Livestock Show every year. This year, he was assisted by Austen Chang. It takes a lot of work to make sure the show goes smoothly – technology used includes iPads, laptops, printers, televisions, and projectors. Everything is run over wireless.

DEVICE IMAGING AND INTEGRATION DII ASSISTING CUSTOMERS

Nancy Grella

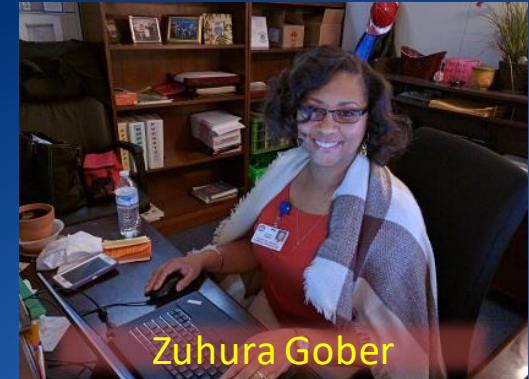

Michelle Campos

Nancy Grella and Michelle Campos installed BlueBeam CAD software for several Facilities employees.

Zuhura Gober worked with Larry Barrios in the Google Admin Console to update teachers in the Google Classroom section. This allows teachers to create classrooms and add students.

Zuhura Gober

Lillie Swearingen and Josh Zhang continued researching options to replace the ADS-2000 scanners used in conjunction with the ScanIt program. This week, they found the HP 5000 works with the program. Kimberly Bowlin is ordering one so it can be field tested.

DEVICE IMAGING AND INTEGRATION

DII ASSISTING CUSTOMERS

Lillie and Nancy

Josh Zhang and Larry Barrios visited CyCreek to be present when the AP and campus technician Esmond Desouza questioned a student about a possible hack exploit. Larry and Josh confirmed the process and assured the school that the network was not compromised.

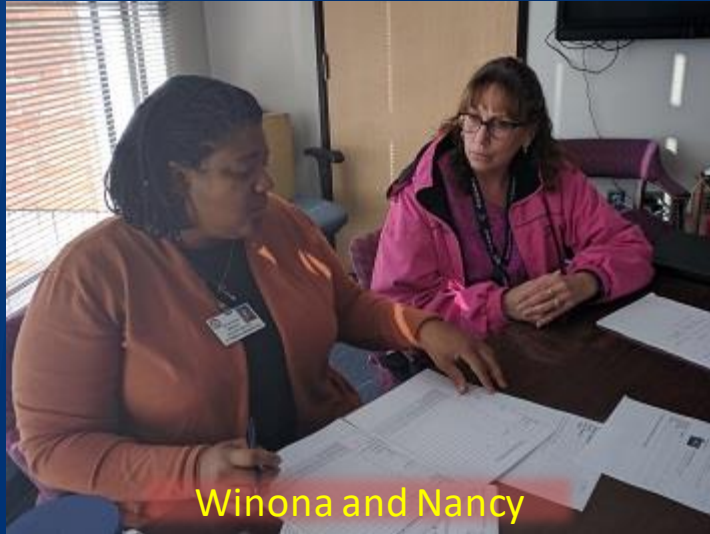

Esmond and Josh

Lillie Swearingen and Nancy Grella visited Hamilton MS to sit in on a Schoolnet Secure Testing session. Issues with the program had been previously reported by the campus. Luckily, no problems were seen during the visit after several periods of testing. Nancy is also researching Schoolnet options for Chromebooks.

Josh Zhang and Anthony Melton assisted Bryan Victoria from Maintenance with updating their Windows XP intercom computers. This presented a challenge as the software is DOS-based and can only run on Windows XP or lower.

DEVICE IMAGING AND INTEGRATION DII MEETINGS

Winona and Nancy

Nancy Grella met with Winona Lincoln from the Special Education department. They went over procedures for handling software requests and new devices.

Coming together is a beginning.
Keeping together is progress.
Working together is success.

- Henry Ford

Several members of DII met with Microsoft representatives in order to discuss Windows 10 Anniversary Edition and possible migration plans.
