

# DEVICE IMAGING AND INTEGRATION

## Ivanti (LANDESK) Upgrade

Josh Zhang and Austen Chang worked with our Ivanti TAM (Technical Account Manager) Tom Gray to update our LANDESK environment from LANDESK Management 2016.0 to Ivanti Endpoint Management 2017.1. LANDESK has changed their company name to Ivanti to better align the brand in light of recent acquisitions. Version 2017.1 brings many new improvements including branding in Workspaces along with categories and other back-end management tools. The entire production environment was upgraded in one day (Wednesday the 7th).

# DEVICE IMAGING AND INTEGRATION

## AngelTrax POC

Andrew Tran and Anthony

Transportation has a POC with AngelTrax, a cellular service with video storage provided on AngelTrax servers in Alabama. This POC requires a server, wireless configuration on the Aruba access point at Westgreen transportation, and a campus with an outdoor AP.

Now that the server is up, clients are able to pull data and video from the server after buses offload the data. Data is stored on the servers if a panic button is pushed and it will auto-download to the server once the bus enters the CFISD wireless network.

This project is supported by DII, NMO, NIC, and Layer3.

### HYBRID QUEST EDGE™

Secure storage in a smaller footprint

The newest DVR in AngelTrax's patented Hybrid Component™ Series, the Hybrid Quest Edge records clear audio/video in 8 channels on a 500GB solid-state drive, providing maximum coverage and recording capabilities.

- ▶ Eight audio/video channels
- ▶ Built-in wireless capability
- ▶ 500GB storage, up to 1TB
- ▶ Dedicated SSD bay
- ▶ Hybrid Component Technology
- ▶ Five year warranty

### HYBRID VAULT™

Experience a better mobile DVR

With patented Hybrid Component™ slide-rail technology available only from AngelTrax, the Hybrid Vault is built to adapt for more storage and future technologies. The Hybrid Vault is an investment that will cut the cost of long-term ownership in half.

- ▶ Hybrid Component Technology
- ▶ Optional solid-state SD card backup
- ▶ Dual 500GB solid-state hard drives
- ▶ Wi-Fi/WiMAX compatible
- ▶ Eight audio/video channels
- ▶ Five year warranty

# DEVICE IMAGING AND INTEGRATION At RRR Conference

This week **Larry Barrios** attended the RRR (Rigor, Relevance and Relationships) Conference. This is leadership conference put on by the district and is open to others districts. I went to the conference not expecting much, but I went to some great sessions and I was glad I went.

I attended the following sessions:

## Tuesday:

Renegade Leadership by **Brad Gustafson**  
Chase the Lion by **Becky Denton**  
The Customer Rules by **Lee Cockerell**  
I want it All by **Mary Smith**

## Wednesday:

Motivate This by **Steve Rizzo**  
Had Conference call with Layer 3 and AngelTrax  
Leadership is a Choice by **Gary McGuey**  
Leadership Secrets by **Steve Rizzo**  
Be the one by **Dr. John Hodge**

## Thursday:

Funny is the New Serious by **David Glickman**  
What your Signature Says About the Kind of Leader  
You Are by **Jamie Mason Cohen**
