

Enterprise Communications Network Network Highlights

Oscar Villar

Oscar Villar met with Presidio and F5 to discuss their DDoS offering and a replacement for the current "End of Life" Cisco ACE load balancer. F5 will send us a quote to review.

Andrew Tran

Anna Senties is working on portables with MCA and Daniel Grosz to get Portable total and status. Anna will send updated list to Presidio per their request on how each portable connects. This information is needed so they can prepare for upcoming switch project.

Roland Padilla

Oscar Villar upgraded FortiAnalyzer firmware from v5.2.4-build0738-150923(GA) to v5.2.5-build3175-branchpt0738-160119.

Elizabeth Montes worked with Phonoscope at Spillane MS so they could repair the fiber in the MDF closet. The goal was to connect the school to the Cy Woods Hub, but the attempt was unsuccessful due to the fact the fiber was damaged.

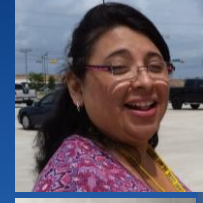

Thomas Hollister worked with Presidio to complete a switch configuration refresh at Anthony MS. David Deitsch, **Glen Carpenter** and **Thomas** installed needed 10gig modules and optics, as well as 2 Catalyst 3560's to uplink the fieldhouse IDF. Redundant link to Berry Hub is now active and functional. All equipment and configuration aspects are now identical to remainder of CFISD campus'.

Tony Rogers supervised the SolidIT install of a battery over the gym at Horne ES.

Both **Thomas Hollister** and **Tony Rogers** took time out of their busy week to stop by the Berry Center and check on the State Wrestling Tournament. The event went off without a hitch. Below is a picture of the Berry Center arena and the scoring table.

Oscar Villar

Roland Padilla managed the receiving 6 pallets of new network equipment at Bleyl during week. Presidio has made ready 5 pallets for transport to Hemmenway, Swenke, Tipps, Yeager and Walker changeovers for the week of 2-29-16. **Michael Grimes** due to prepare pallets for delivery 2-25-16 at Bleyl by mid morning

Andrew Tran

Roland Padilla managed the surplus network equipment at Bleyl. CMS communications submitted a quote for \$20,000 in which they now have rescinded due to concerns of equipment that may be DOA. **Roland** then contacted second highest bidder Cxtec who will be scheduling pickup of this equipment Friday 2-26-2016.

Roland Padilla

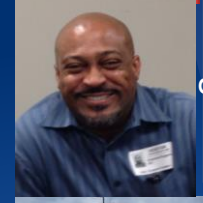

Pictured right are members of the Technology team jumping in to help **Mike Grimes**. **Mike** is in need of smaller pallets for elementary school equipment delivery and pickup.
