

Enterprise Communications Network Network Highlights

Oscar Villar worked with Big City to restore the external DNS for CyPark High School.

Elizabeth Montes worked with Juan Cruz at the Police Department to remove a legacy switch from the MDF since it was no longer in use.

Andrew Tran setup an etherchannel to help Lance Melancon connect a new server to the original Cisco 6509-3.

The Lexmark printer went bad at Farney ES. **Elizabeth Montes** worked with the service group to replace the NIC card. **Elizabeth** then reconfigured the Lexmark Printer and contacted Tammie Bartkowiak. Tammie verified connectivity to the printer.
