

Enterprise Communication Networks Operational Activities

Work continues on the Cy Woods marquee. Stewart Signs is sending another technician from Florida to repair the marquee. Once the repair is complete, **Elizabeth Montes** will configure the marquee.

Elizabeth Montes

Oscar Villar requested all portable building physical connection information that MCA had on file. **Elizabeth Montes** has been working with Brandon Stagg from Climatec. The two are utilizing this information to deduce subnet information for the creation of new DHCP reservations required.

Roland Padilla

Roland Padilla working to complete several summer office moves. This week the focus was on the relocations at Cy Creek HS.

Anna Senties and **Elizabeth Montes** spent time troubleshooting network connectivity in the administrative offices at Adam ES. The network equipment in the MDF has been overheating due to insufficient A/C environmental.
