

Enterprise Communications Network Operational Activity

Oscar Villar

Oscar Villar's Operational Contributions –

- ECN supplied network information as part of the Police Department's security audit.
- In response to the distributed denial of service attacks CFISD continues to experience, Oscar requested an evaluation unit from Radware. Working with Russ Baron to add DefensePro evaluation units to our WAN interfaces. Also returned a questionnaire to Incapsula for a quote.
- Troubleshoot Schoolnet issues.
- Decision was made to sunset the Analog video solution.

Roland Padilla

Roland Padilla's Operational Contributions –

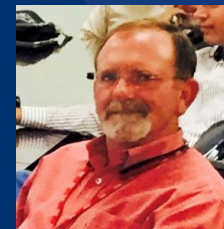

- Cy Fair Ag Center network request update - Received formal quote from Maintenance to provide 2" conduit pathway to this location. Work was approved and we will proceed with providing connectivity to this location.

Oscar Villar

Charles Newton's Operational Contributions –

- Welcome to Cy Fair Technology Services and the ECN Team!
- Charles has hit the ground running and has been focused on the VOIP project requirements. The details are highlighted under the bond reporting section. This is significant because this allows Roland Padilla to provide greater support on the operational side of activities.

Roland Padilla

Glen Carpenter's Operational Contributions –

- Glen continues to provide wireless support on bond related activities. Glen spent most of his time this week assisting with the Langham Creek HS Fast Track (activating the densely distributed APs).
- Glen also assists the ECN analyst with iSupport requests as needed.

Charles Newton

Tony Rogers' Operational Contributions –

- Tony has spent time with Anna Senties, Elizabeth Montes, and Thomas Hollister getting accustomed to the CFISD site support structure.

Enterprise Communications Network Operational Activity

Elizabeth Montes' and Anna Senties Operational Contributions –

- Sent updated IP address information for the HVAC enviro-sensors to Brandon Stagg from Climatec after Cook and Watkins MS upgrades
- Worked with MCA to reinforce one of the Hubbell boxes at Cy Woods HS. In addition, MCA will relocate a second Hubbell box at Cy Woods to be closer to the power outlet
- Worked with MCA verifying ports and configurations for Cisco wireless AP's at a variety of elementary campuses
- Repaired a loop in the root bridge that disabled all the wireless at Frazier ES
- Worked with MCA to remove switches and APs from the ticket booths at Pridegeon stadium since the demolition work began this week
- Received a quote for the wireless in the new addition at the Food Production Center; A second walkthrough is planned for the existing Food Production office space for wireless consistency
