

Enterprise Communications Network Operational Activity

Oscar Villar

Oscar Villar's Operational Contributions –

- Last week Cy-Springs was down from 10:30pm Thursday until Saturday, due to a fiber break caused by rats.
- ECN supplied network information to Sergeant Michael Gallaway of the CFISD Police Department, for CLEAR Temporary Access.
- A final decision was made to retire the legacy analog video solution. A possible temporary solution will be to use MediaCast to bridge us until we can purchase and install Vbrick.

Roland Padilla

Roland Padilla's Operational Contributions –

- Cy Ridge and Eldridge transportation experienced phone service issues. Multiple lines were out of service, pending repairs from ATT. Emergency VoIP service temporarily installed at designated positions until service was restored.
- Received cost estimate and provided funding estimate for installation of Cy Fair HS Ag Center classroom.

Charles Newton Daily Contributions to VOIP Project –

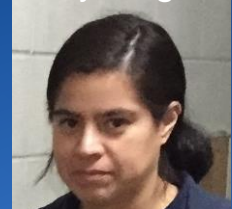

- Create project tracking documentation
- Phone Set recommendation
- Establish timeline for phone selection
- Coordinate with AT&T to arrange demo equipment
- Begin Committee selection process
- Ongoing - review of CFISD UC low level teleconference agenda items
- ERL discovery (Emergency Response Location)
- Cisco SRST (Survivable Remote Site Telephony) gateways at each campus - efforts to discover the location best suited to place this equipment will be a new factor to address, a central location is required for access to telephone terminations are available. At various campuses there is no network/ups or even a power connection. one example is Bang Elementary where the phone closest is in a boiler room next to cafeteria
- Provided reference documentation regarding current help desk telephone system configuration for Customer Care Center contact center component to ATT for review and analysis
- Met with ATT contractor at ISC-N for assessments regarding new circuit install for AVPN MPLS circuit

Glen Carpenter's Daily Contributions to Wireless Project –

- Early part of the week was spent cross connecting the MDF/IDF closets at CFair HS with MCA Communications.
- Later portion of the week was spent with Layer3 Communications installing BYOT at Cy Fair HS.

Thomas Hollister Operational Contributions –

- Overnight storms caused power issues at Jowell ES which damaged 2 switches in the MDF. Equipment/parts were available so outage was addressed completely.
- CySprings was completely offline due to Phonoscope fiber damage. Interestingly, the damage was underground, at the campus. A rodent had managed to get inside the underground conduit and had been eating the fiber. The fiber was re-pulled into the building by early evening and campus was back to normal the next day.

Oscar Villar

Tony Rogers' Operational Contributions –

Time spent with Elizabeth Montes, Anna Senties and Thomas Hollister learning campus procedures.

Thomas Hollister

Roland Padilla

Elizabeth Montes' and Anna Senties Operational Contributions –

Elizabeth received the quote for the wireless in the new addition at the Food Production Center. Layer3 wants to do a walkthrough in the existing FPC to get a quote for that part of the building.

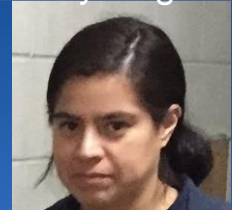

Tony Rogers

Elizabeth and Anna worked together to get the portables working at Campbell MS .

Anna Senties helped MCA Communications check ports and configure Cisco AP's for elementary schools.
