

Thank You for Service Above and Beyond...

THANK
YOU

Thanks Glen for going
Above and Beyond the Call of Duty!!!

Paula Ross would like to thank **Glen Carpenter** for his dedication last week that went above and beyond the call of duty on two accounts.

First account – Wednesday, October 24, 2017, Fiest ES experienced an outage due to a fiber cut to the campus. The ECN team worked collectively to rectify the situation, but these repairs take time. I would like to thank Glen for staying well into the evening with PS Lightwave as they repaired the fiber.

Second account – Friday, October 27, 2017, was another evening of football at the Berry Center. As the Berry Center venue opened for ticket sales, the Athletic Department noticed they had no technical support on hand. Glen received a last minute call and was more than willing to abandon his evening and support the football event.

**ABOVE AND BEYOND THE CALL
OF DUTY**
