

Leading With Passion

Get in touch with your passion and put it to work at work.

Marilyn Suttle

meetville.com

- Passion is that spark within you that provides continuous enthusiasm!
- It is that focus and energy that we need to be successful.
- It is that powerful energy that brings enthusiasm!

Think of one person that you work with that is passionate about life and enthusiastic about their work.

What are some of their characteristics?

- They can't wait to get up in the morning and get started
- They are eager and energetic
- They are filled with purpose
- They are committed to their mission
- You get the sense they love and enjoy their work

“*You can't fake passion.*”

Barbara Corcoran

How do you feel about that person?

Leading With Passion

- Passion comes as a result of caring about what you do.
- If you love your work, if you enjoy it, you are already a success!

How Do You Develop Passion?

- Ask yourself, Am I doing what I love to do?
- If you aren't, and you had the choice to do anything you wanted to do, what would that be?
- If you had all the toys and travel you wanted, what would you do with your day?
- Would it be what you are doing now or something different?

The most successful people love what they do so much they would probably do it for free. They are successful because they have found a way to make a living doing what they love to do.

**DO IT WITH
PASSION
OR NOT
AT ALL.**

Leading With Passion

Pay attention to the times outside of the office when you feel the happiest, the most joyous, and the most fully engaged.....

Always make your Passion as your Profession,

It will help you to gain Perfection.

- Shashank Rayal

What are you doing at those times? What were you experiencing?

- Those events are indicators of ways you can bring passion into your life outside your day to day work. It tells you what you would be happiest doing with your time.
 - Passion is a powerful tool for success!
 - It deserves to be an area you consistently work on.
- Passion makes your days fly by.
 - It helps you get more done in less time.
 - It helps you make better decisions.
 - It attracts others to you.
 - They want to be associated with you and your success.

Leading With Passion

IF YOU'RE NOT
PASSIONATE
THEN YOU'RE WASTING YOUR
TIME

How can you maintain passion and enthusiasm every day?

- Spend more time doing what you love to do.
- Reconnect with your original purpose for doing anything that you do.
- When you look underneath the surface of the things that feel like have-tos rather than want-tos, you may find there is a deeper purpose that you are passionate about.
- Ask yourself, **What is the why underneath what I am doing?** If you can get in touch with that, it is a lot easier to get enthusiastic about whatever it is that you **have** to do.

Example: You may not love the idea of sitting in a pediatrician's waiting room with your child, but when you get underneath it, aren't you passionate about your child's health and well-being?

Leading With Passion

You will probably discover that the things you feel like you have to do are really choices that you are making that serve some higher purpose such as taking care of your family, creating security for your future, or contributing to your health and longevity.

Once you realize you are making the choice, then the choice is your attitude and how you feel about what you are doing! The choice is then up to you.

Why not choose to do everything you do with joy and enthusiasm!

Leading With Passion

When you express your passion and enthusiasm, you will become a magnet to others, who will be attracted to your high level of energy.

They will want to play with you, work with you, and support your dreams, missions, vision, and goals.

As a result, this extra manpower and the resources they bring means you will ultimately get more done in a shorter period of time!

Leadership is passion
to improve our world
