

Defining the District Communication Plan During a Campus Crisis and Touring the Police Department Dispatchers

Frankie Jackson participated in a meeting at the police department on Wednesday, **November 9, 2016** to work on defining the district communication plan during a campus crisis. A copy of the presentation is [here](#).

After the meeting, Frankie took a tour of the police department's dispatch center where she was able to talk to the police officers about the new phone system and technology. They were very complimentary. They are loving the new technologies and had great words of appreciation for our staff.
