

# Loan Star College Chancellor's Chief Information Officer Advisory Meeting

Frankie Jackson was nominated to serve on the Lone Star College Chancellor's Chief Information Officer (CIO) Advisory council. She attended the 2<sup>nd</sup> meeting on **February 20, 2018**. The focus of the meeting was for Loan Star college executive level staff to find out what their supporting school districts found to be their greatest challenges.

I told them one of the greatest challenges was finding qualified staff to support our technology service needs as well as keeping systems upgraded to the latest and greatest standards.

Other districts shared their concerns, most of which were similar to mine.
