

Meeting with Dave Kapavik (Layer3) to Conduct a Full Project Review of Open Items and Upcoming Plans

Frankie Jackson met with Dave Kapavik (Layer3) on **January 26, 2017** to review the projects that are underway. Layer3 is the strategic partner providing all enterprise wireless support and datacenter virtualization design. Additionally Layer3 is proposing a remote access point wireless technology to provide home access for students without connectivity. Preliminary design work is underway. Shown in the following picture is a proposal to connect the Tanner trailer park to Kirk elementary. A full cost proposal is being developed for our review. All projects are progressing on schedule.
