

# Student Information Systems eSchool Training on the New Version of PowerSchool

On **March 7, 2018**, Frankie Jackson attended Pat Maldonado's training for the new version of PowerSchool eSchoolPlus 4.0. The training was held at CyPark high school. Pat did a fabulous job of training in how the new version of software works. She was patient and extremely knowledgeable, filling in for the PowerSchool teacher that we consulted with to conduct the training.

## Great job Pat!
