

# Appreciation and Recognition For ESC12 E-Rate Consulting in Their Support to Cy-Fair ISD Receiving \$8.5M+ of E-Rate Reimbursements

Members from the Technology Services department showed their appreciation to Ashley Brown with ESC12 E-Rate Consulting for her hard work and support in the district receiving **\$8,500,842** in E-Rate reimbursement funds from 2015-2016 for wireless access points and internal connections.

Ashley Brown is our E-Rate Consultant for providing e-rate services in support to the Universal Service Administrative Company (USAC), the governing body with authority to release E-Rate funding reimbursements. Ashley along with her predecessor, Nancy Sulsta, completed the paperwork, helped CFISD work through the application and certification process and answered audit questions – all of which is needed before we received funds. Ashley took a picture with our team right before we conducted an wireless access point audit by USAC auditors on April 24, 2018. ESC12’s E-Rate Consulting services are greatly appreciated as well as other CFISD staff working on our 2014 Bond technology infrastructure upgrade. **Thank you team! Members recognized from the Technology Services department include: Leonard Chance, Geoff Brown, Katie Hernandez, Ray Leung, and Cassy Slade.**

Leonard Chance, Frankie Jackson, Geoffery Brown, Ashley Brown, Katherine Hernandez, Ray Leung, and Cassy Slade

## Leadership and Vision
