

# Meeting to Review Instructional Materials Allotment Funding Opportunities

Frankie Jackson participated in a meeting held by Karen Smith on Monday **April 4, 2018** to discuss funding opportunities that are available from the Instructional Materials Allotment (IMA). The team reviewed every instructional software line item in the budget, seeking opportunities from the state. The team found about \$3M that could offset the 2018-2019 operating budget, including ClassLink. This is great news.
