

Technology Services Organizational Alignment for 2017-2018

Frankie Jackson has worked with the Technology Services Leadership team all summer to update each team's organization chart. The updates are now available [here](#).

The Technology Services team organization is very close to being aligned. Some of the updates include:

Moving Larry Barrios' Device Imaging and Integration (DII) team under Acquisition, Assets, and Sustainability, and moving secondary campus technician support under Larry Barrios.

Other changes includes moving Josh Zhang under Network Management and Operations, and Michelle Campos under Acquisitions. Further, a new Enterprise Communications Network manager position has been posted.
