

PowerSchool Demonstration of Student Information System Online Registration and Content360 eCumm

On Friday, **August 17, 2018** Frankie Jackson met with representatives of PowerSchool and Harvest Technologies along with staff from the Technology Services department and Student Services. The focus of the meeting was to determine a plan of action for moving forward with PowerSchool's online registration. The following agenda was discussed and representatives participating. The online registration software was budgeted in the 2018-2019 budget. The team plans to take this item to the Board in September 2018 so a pilot can begin in January 2019 with the intention of a full implementation in August 2019. This is exciting news for CFISD!

AGENDA:

Student Information System (SIS) Online Registration System

- Family-facing Registration Process
