

Hurricane Preparedness Standard Operating Procedure Updated

On Wednesday, [August 23 2017](#), Frankie Jackson prepared a hurricane preparedness procedure. She sent the procedure out to the teams for review. This information was then sent to all technician staff to assure all is in order in preparation for Hurricane Harvey to make landfall. She also worked with all technology teams to make sure emergency contract information was up to date, including all vendor / strategic partnership's contact information.

All campuses are working to get all portable devices secured and out of the way of high wind and flooding.
