

School Messenger and Using the Setting Alerts Feature

Here is an example of what a user would see when initiating a Desktop Alert notification:

Once an alert has been sent, here is an example of what a staff member would see:

On August 29, 2018, Frankie Jackson met with account representatives from School Messenger along with Leslie Francis, Jennifer Miller, John Crumbley and Larry Barrios.

The focus of the meeting was to discuss innovative ways for staying in contact with teachers, staff and students during school hours. We discussed using the School Messenger alert feature. This could be used during lockdowns or in emergency situations. Representatives from School Messenger took the action to work with Larry Barrios to setup a proof of concept to see how effective this feature is.
