

Aruba HPE and Layer3 Customer Engagement Briefing

Aruba HPE hosted a customer engagement briefing for CyFair ISD's network infrastructure team on Thursday, **April 12, 2018**. Richard Heffelfinger coordinated the briefing that included the following agenda items. Layer3's implementation team also joined the briefing which made for a great day of learning and information sharing. The teams strategized about future projects including CyberSecurity initiatives, wireless student information systems based on location tracking, and redesigning new schools with cutting edge wireless and network infrastructure.
