

LANDesk Executive Management Attention on CyFair's Implementation and Progress

Devices

Bond 5.2

LANDesk's executive level management was in town on Wednesday, **June 8, 2016** and made a special trip to visit Frankie Jackson and Larry Barrios. Andy Ruse, Vice President of the Americas, and Don Landers, Territory Manager of Texas' State, Local Government and Education (SLED), are interested in making CFISD a showcase account. They are impressed with our district, our LANDesk implementation, and Larry and his team!

After our Novell ZENworks to LANDesk conversion is complete, LANDesk is planning to host a user group or product demonstration, showcasing our implementation and success.

Andy Ruse, Vice President Americas, LANDesk Software
Don Landers, SLED Territory Manager LANDesk Software
Larry Barrios, Device Imaging and Integration Manager

Leadership and Vision
