

# Technology Services Shows Generosity to Students at Danish Elementary School

The Technology Services department rallied up to collect Christmas gifts for students at Danish Elementary school. Thanks to **Kim Bowlin** for organizing the coordination between Danish staff and our department, as well as **Katie Hernandez** for tracking the needs and sizes of the four (4) children that were adopted by our staff.

Each of the children were provided shoes and clothes and toys! The picture to the right shows some of the wrapped gifts that were provided. It was heart warming to see the generosity extended to these CyFair families! Thank you team.

**GENEROSITY**  
the most *natural* outward expression  
of an inner attitude of *compassion*
