

Review of the Employee Access Center Software Updates and Process Improvements

On Friday, **August 17, 2018** Frankie Jackson met Jennifer Miller, James Costello, Karen Smith, Paula Ross, Eric May and Mark Flores to discuss the security software upgrades and the process improvements that have been made to the Employee Access Center (EAC). The team was pleased with the improvements. Eric May did a fantastic job at summarizing the work that has been done. At this time however, EAC will be only available from within the district's network. The team will re-address making the EAC available from outside the network at the end of the calendar year.
