

# CypherSecurity eLock360 Proof of Concept Product Review

Frankie Jackson, Jennifer Miller, Eric Pina, and Luis Velez conducted a conference call with representatives from CypherSecurity on **January 26, 2018**. The team reviewed the progress of the proof of concept. All is going well. The team continues to run the eLock360 program. The team is observing the advantages of eLock360 as it relates to keeping district data safe. The proof of concept is scheduled to run until mid-February 2017.

In December 2017, we approved the CypherSecurity eLock360 proof of concept to be installed. CypherSecurity is a company that helps districts protect their data against data and security breaches.

- Scott Crim and Kelly Hanson (CypherSecurity) reviewed security alerts and talked about progress. Scott plans to continue improving the software.
- In mid-February, we plan to regroup and determine if a plan for implementation is viable for purchase.

Luis Velez and Eric Pina, Representatives of the Customer Care Center
