

# Staff Supports Technology Festival at the Berry Center on April 7, 2016

Thanks to **Paula Ross, Lillie Swearingen, Josh Zhang, Brandon Splawn, Stephen Rodriquez, Thomas Hollister, and Henry DeLeon** with the Layer3 team for supporting over 1,000 students at the 2016 Technology Festival. Becky Cook asked for help and boy did she get it. Not only did everyone provide outstanding support, they showed enthusiasm and professionalism Thank you for supporting every student every day!

Brandon Splawn, Stephen Rodriquez, Lillie Swearingen, Josh Zhang

I wanted to thank you and your team for all the support that we were given at the Tech Fest last night. Even though we had some challenges in the Arena, your team went above and beyond to work through the issues and support the teachers and students in every way possible. **Lillie, Josh, Steven, Brandon and Thomas** were amazing and provided excellent customer service with a calm demeanor and a smile! We could not have gotten through the night without their support! Also, a special thanks to **Paula** and **Henry** from Layer One for keeping an eye on the situation and staying in touch with me to provide me with information! You have an awesome team!!! – **Becky Cook, Director of Instructional Technology**
