

# Meeting with Hayes, TIP Web Asset (Inventory) Strategic Partner

Frankie Jackson participated in a meeting on Tuesday, [May 16, 2017](#) with Hayes TIP/Web Asset software system representatives, along with Ashley Katzenberg and Leonard Chance. Technology Services uses Hayes for inventory tracking. Barry Trickey and Debbie Disler, our Hayes representatives, visited to determine how the company could provide additional services or improve. We talked about the need for E-Rate monitoring reports and inventory auditing performance analysis capabilities. They were receptive to our needs and felt all districts in the state could benefit from the improvements.

Barry Trickey, Ashley Katzenberg, Debbie Disler, and Leonard Chance.
