## Leadership Contribution and Specialty

**Remarkable leaders think about their personal contribution and specialty to the team.**

- What is your personal contribution?
- What is your personal specialty?
- How is your leadership making a difference to your team and our services, processes, customers, and community?

Answers to these questions help us be more cognizant of how our actions are contributing to the organization and how they will in the future. It is always the right time for us to think about this!
