

Security Strategy Planning and Planning for the Upcoming Expansion of RFP #18-06-7180R (Intrusion Detection and Prevention Systems)

A team from Technology Services met on August 8, 2018 to discuss RFP #18-06-7180. It was decided to put the evaluation and selection of the RFP on hold because there were additional security considerations. See [here](#) for notes.

On Friday, **August 28, 2018**, the team regrouped to discuss the scope and strategy. The table to the right shows the overall scope that will be included in a revised/new RFP. The RFP will include multiple sections with the intention to find a more comprehensive solution.

John Crumbley, Larry Barrios, Polly Gifford (EPS), Paula Ross, Greg Rhodes, James Costello, David Deitsch, Jennifer Miller and Frankie Jackson (not pictured)

| Cyber Security | Device Imaging and Integration | Enterprise Communication Networks | Network Management Operations | Information Services and Applications E-Mail Administration | Facilities |
