

Son Nguyen from Information Services and Applications Serves Lunch and Teaches New Programming Language

Frankie Jackson participated in a lunch and learn on March 27, 2018 with the Information Services and Applications team with Son Nguyen hosting lunch and teaching the class. He explained the basics of Telerik, a modern user interface development platform for web, desktop, and mobile app development using .net, javascript, reporting and productivity tools. Son brought a fantastic lunch which made the whole lunch and learn a great success. **Thank you Son!**
