

# Special Thank You to the Technology Services Leadership Team

I want to give a HUGE thank you to the Technology Services Leadership team, including Katie Hernandez, Jennifer Miller, Jay Johnson, John Crumbley, Larry Barrios and Paula Ross. They sent a bouquet of flowers on Monday, the first day of the conference, that were in my room when I checked in. The flowers continued to open their blooms as the week went on. I sat the flowers in my window seal and enjoyed them all week. Each time I looked at them I felt an enormous sense of pride, on many levels.

I appreciate everything that each of you do to support me and the entire technology program. I am especially thankful for the team holding down the organization while I was at the conference. Thank you.

I can't say in words how blessed I am to work with you each and every day! - Frankie Jackson
