

Technology Services Toastmasters Club Organization

The Technology Services department has formed a Toastmasters Club. So far twenty-three have signed up. There is a great need for technology staff to improve their communication and presentation skills. The chapter team met on **August 21, 2018** to discuss chapter organization details. The meetings will start in September. The chapter will meet once a week during lunch on Tuesdays. It was impressive to see so many staff members that want to invest in their personal growth!
