Texas K-12 CTO Council Summer Clinic Student Data Privacy and Northside ISD's Phishing Attack

Will Richardson was the keynote speaker at the Texas K-12 Chief Technology Officer (CTO) Council conference on **June 22, 2017**. He gave an intriguing presentation on Modern Learning. Here is a [link](#) to his slides.

The Texas K-12 CTO Council will be leading the student data privacy alliance for Texas. Any CoSN/ CTO Council member district will get a free membership into this consortium. The goal of this alliance is to work with other organizations to develop a standard agreement for vendors and districts to use when completing the privacy portion of their contracts. This will be a great way to participate in a state-wide collaboration!

On August 12, 2016, Northside ISD staff were victims of a phishing attack. Presenters shared their experience of how our District's staff and students were affected as well as their team's response.

Northside ISD Phishing Attack and Their Plan of Action

Texas K-12 CTO Council Summer Clinic Student Holistic IT Strategy

Scott Monroe presented on a Holistic IT Strategy. As portfolio director for Public Sector Portfolio, Scott talked about on Cloud, Advanced Security Threats, Mobility, and Big Data. He focused on how the IT landscape is changing at faster pace than ever before. He advocated using a strategic and holistic approach to technology investment, and offered ideas as to how to stay out in front of it.
