

Technology Services Website Review and Plans for Improvement

Frankie Jackson met with all leadership team leaders to review each team's webpages on the [Technology Services Website](#). Geoff Brown also participated in the meeting so he could add suggestions and be prepared to make the website changes. The team was focused on how to do a better job at showing Key Performance Indicators and Results, as well as other cool stuff we want to do. [These changes](#) will be made over the summer and all will be complete by the start of school!

Technology Leadership and Communication

Vision: BE the District that TRANSFORMS education

Mission: LEAD in Providing World-Class Quality K-12 Systems

Values: Efficient - Accessible - Systematic - Highly Skilled - Student Focused - Service Oriented - Leadership
