

Improve Yourself and Change the World

Simon T. Bailey presented at the 2nd General Session of the Annual Texas Association for School Business Officials (TASBO) on **March 3, 2016**. Simon expanded on the theme of building trust by focusing on being present, developing the skill of listening and how we interact with those around us – all of which contributes to building up or breaking down trust. Simon gave a heartfelt speech that was funny and touching! He was articulate to emphasize the overarching theme of the conference: Building Leaders – Building Trust.

Expand your inner circle to include those who can challenge your thinking and escalate you to unreached heights of success.

The greatest tragedy in life is not death. The greatest tragedy is to be alive and not know why
