

Finishing Printer Logic

This week **Ken Gibson** met with **Jeff Cottle** and **Alessandro Russo** from Printer Logic. They discussed best practices as recommended by Printer Logic and reviewed current issues and concerns.

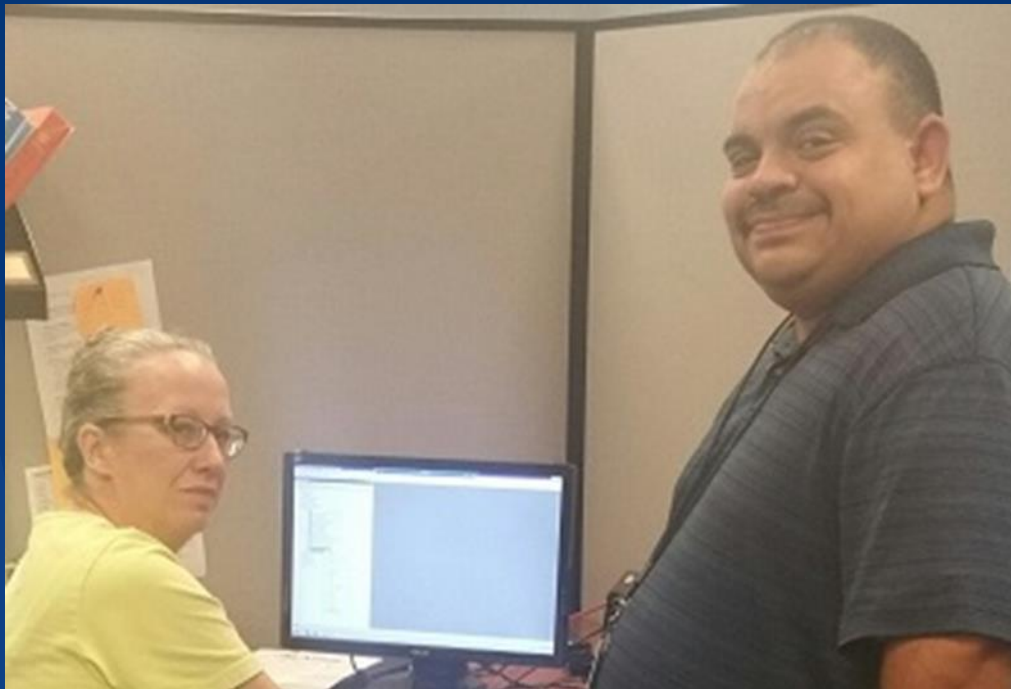

Ken continues to work with users and District Technicians to resolve issues with connectivity to the printers.

PrinterLogic

TeleCenter U Update

Mike Diaz and **Nelda Hanzi** worked together on getting the SQL database installed for the TeleCenter U software.

Mike also worked with Fire Tron on configuring and upgrading the TeleCenter U software.

The software allows employees at campuses throughout the district to configure and upload PA system alerts for safety and announcements.

A Light in the Darkness

Greg Rhodes is on vacation this week in South Padre. He left Houston in a downpour, but found plenty of sunshine on the island.

The lighthouse in Port Isabel brought a sense of peace and serenity, reminding him that in a sea of stress and uncertainty, one shouldn't get lost in the waves but to stay to the course, trusting the Light that guides him.
