

# DEVICE IMAGING AND INTEGRATION

## DII In Action - CFPD Support

**Anthony Prepares Laptops**

**Anthony Melton** worked hard to support the CyFair Police Department this week. He is the primary support person for the CFPD.

Currently, he is working on Coban support as well as RIMAGE, the DVD tower for Coban.

He is also imaging toughbook laptops for new officers.

New systems are required for the Mobile Command Center (dispatch support) as well.
