

DEVICE IMAGING AND INTEGRATION

McAfee POC Meeting

Larry Barrios, Anthony Melton, and Derly Buentello attended a conference call with McAfee regarding the POC.

They discussed the ongoing progress of the McAfee Proof of Concept. The group confirmed with McAfee that their training of the product was good and that they had not run into any issues that McAfee had not been able to assist with.

Derly and Anthony

Next Steps:

1. Continue monitoring POC with McAfee.
2. Compare McAfee POC results with Palo Alto Networks Traps POC results.
