Week Ending June 12, 2015

## Geoff Brown Leading the Way....

Geoff Brown is leading the way as he works with the Technology Services leadership team to expand the new Technology Leadership and Communication website, [www.cfisd-technologyservices.net](http://www.cfisd-technologyservices.net). This new site will replace the previously used website, [www.frankiejackson.net](http://www.frankiejackson.net) website. The new website will be more dynamic and customer oriented. All information related to Leadership is now available on the new website [here](#).

Geoff's expertise, including 3 years of Computer Science and 1 year of Cisco at Cypress Creek, culminating into a CCNA certification, gives him the background to provide significant technical skills and leadership on the project.
