

# DII Continues to Evaluate Desktop Software

Josh Zhang working with Rodney

DII continues to evaluate and test Microsoft System Center. The team has installed the Microsoft System Agent on all teacher and administrative machines at Bang Elementary. **Josh Zhang** and **Daniel Serwinek** went to Bang on Monday. They worked with **Behavior Interventionist and Computer Liaison Rodney Garcia**. **Josh** and **Daniel** worked with teachers and tested the delivery of software using the Microsoft System Center.

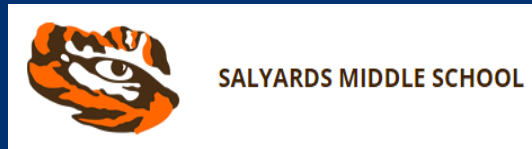

# DII Testing Network Closets

DII

Nancy in closet

Nancy and Elizabeth

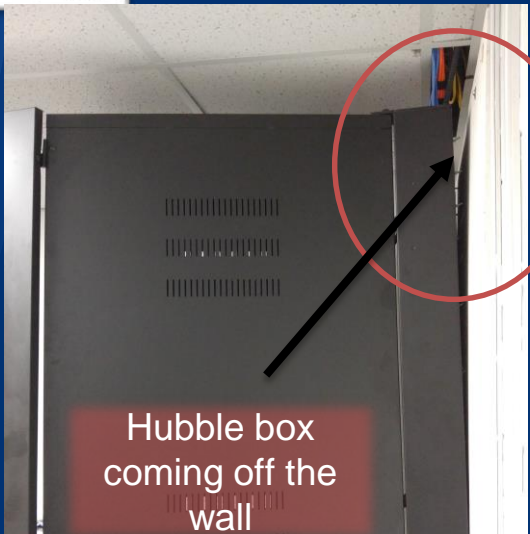

Michelle and Rosemary

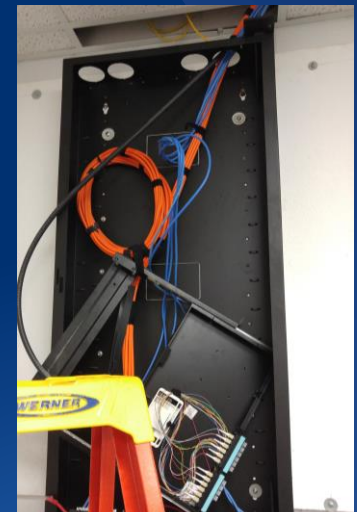

Nancy Grella meet Elizabeth Montes at Salyards Middle School on Monday October 26. At the same time Michelle Campos was at Truitt Middle School. When DII is onsite testing a member from ECN in onsite or available via phone to make sure everything is working. If problems come up, ECN would reach out to Presidio and they assist in correcting the situation. Nancy and Michelle also check in with the Campus Service Techs and make sure there are no issues with admins, teachers or students accessing the network.

# DII Helps with Bond Project

DII is involved in many projects. They are ready to help when needed to help with the wireless and cabling projects. This weekend **Josh Zhang** worked on Saturday at Dean Middle School. **Josh** was onsite so that MCA could replace a Hubble Box (box used to hold network gear). The box was coming off the wall. They had to work on Saturday because they had to disconnect the equipment. Once the box was reinforced, all the equipment had to be reinstalled and tested.

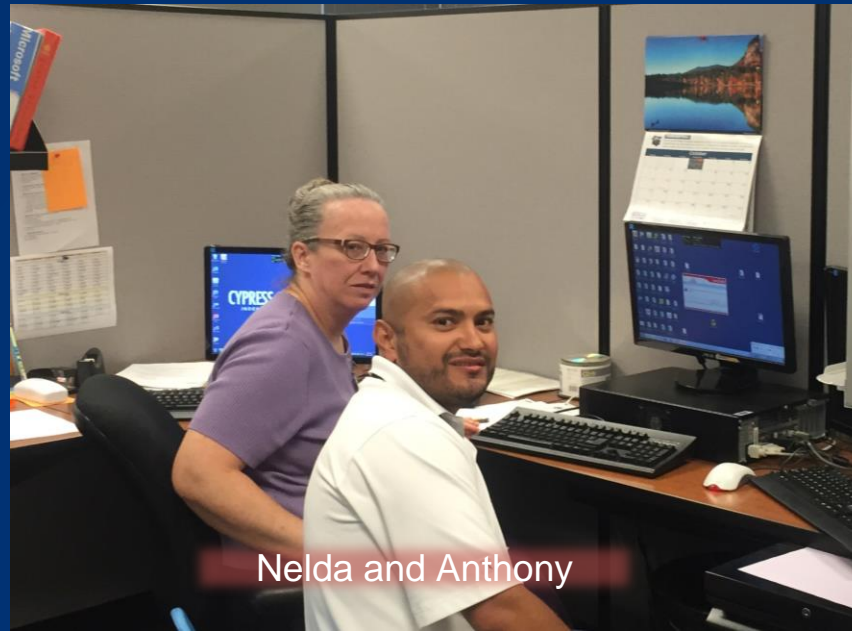

DII and MCA had to wear masks at Dean because of the Asbestos abatement. This was part of the district safety procedures set in place.

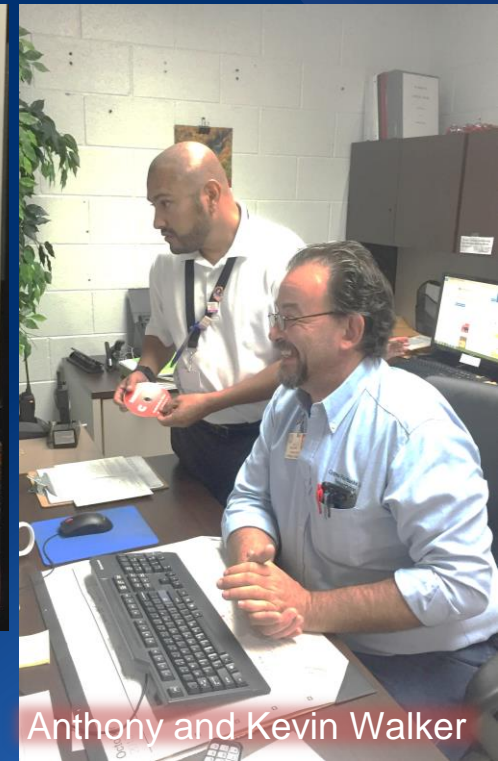

# DII Testing Network Closets

Anthony and Kenny Holt

Nelda and Anthony

Anthony and Kevin Walker

Anthony Melton and Austen Chang worked with Transportation on different days this past week. Anthony, Austen, and Daniel worked on converting and upgrading the Transfinder client at all 4 of the Transportation Centers. This was a joint effort with NMO and DII. Nelda Hanzi upgraded the server version of Transfinder and DII upgraded the clients.

DII then went back and worked with the Shop Foreman Kevin Walker and installed Insite (software to help with bus repair). Anthony also worked with Kenny Holt and answered technical questions.

# DII Testing Network Closets

Robert onsite

Josh checking Skype

Kids practicing Dance

Josh Zhang from DII helped out at Sheridan Elementary School on Thursday October 29<sup>th</sup>. Josh worked with Steven Stone to install Skype. The school was chosen to be on the Ellen Degeneres Show.

The Ellen Degeneres show was scheduled to Skype with the school at 3:45. The school was going to perform a dance for the show. We want to say thanks to Robert Hernandez and Josh Zhang for being onsite to assist.
