### ECN Operational Support at the Core, North & South Side of Hwy 290, and Telecommunications -

Oscar Villar and Roland Padilla enjoyed a little vacation time last week. Highlighted below are the main areas of operational support provided the week ending July 3, 2015:

**Cy Woods HS – Anna Senties** and **Elizabeth Montes** worked on the campus marquee. Currently the campus has an open service request with Stewart Signs. Additional parts are needed to repair the marquee. Once the new parts are installed, ECN team will configure the marquee with the new IP address scheme.

**Cy Fair HS – Elizabeth Montes** and **Anna Senties** worked with Spectrum Signs company to get Cy Fair HS marquee back online.

Anna Senties

Elizabeth Montes

**Elizabeth Montes** visited the following schools due to power outages:

- Moore ES
- Bang ES
- Jersey Village HS

### ECN Operational Support at the Core, North & South Side of Hwy 290, and Telecommunications -

Plans are underway to upgrade the Berry Center's wireless infrastructure. The upgrade will be in phases with the Berry Center meeting rooms and theatre to be upgraded first. Below are pictures of recently delivered Cisco switches, new cabling, and new Aruba access Points that arrived June 29, 2015. Technology Services will coordinate with Berry Center staff and determine the most appropriate time to kickoff the project.
