

Curriculum Meeting

Lee Honeycutt Rodney White

Barbara Levandoski Dr. Linda Macias

You can view the welcome video of eTextbooks [here](#).

The ISA members, **Eric May**, **John Crumbley**, **Richard Crishock**, **Tammie Bartkowiak**, **Lee Honeycutt** and **Rodney White** presented new technologies and other information at the Curriculum Coordinators meeting.

Rich Crishock instructed curriculum coordinators and coaches in the use of devices that will be used to help curriculum collect attendance information when teachers are trained during in-service in August. This new technology has great potential.

Lee Honeycutt and **Rodney White** talked about digital textbook changes for the upcoming school year.

Paperless Attendance For Staff Development

Rich Crishock, Tammie Bartkowiak, Eric May, and John Crumbley joined Dr. Macias and her curriculum team to train on the use of tablets for Paperless Attendance.

This new technology will be used in the August staff development with all CFISD teachers.

This new technology will save time during the sign-in process, allowing teachers to more quickly attend their training classes. It will also provide time-savings after the class, as each attendee is entered into system to award credit.

Rich Crishock

Rich Crishock

We had a great training class on how to use the tablets for “Paperless Attendance”. Curriculum and Staff Development they are so talented. They adapted to the new technology flawlessly! Rich Crishock began with a demonstration of the proper setup of the stand to insure that the tablet is stable. He walked everyone through the complete process, start to finish. Everyone was so excited about the new technology and the amount of time it will save them.

Rich's additional successes this week include:

- Research SchoolNet/ iXplore withdrawal dates and permission override flags
- Research / develop Android code for the campus login app
- Modify / Test Hayes Tip Web changes to write teacher info to both teacher and staff extract files
