

Transforming Education

Donna VanHooser

Donna VanHooser, pictured to the right, presented to Early Childhood, Pre Kindergarten and Kindergarten special education teachers **Thursday and Friday, February 11 & 12, 2016**. The teachers had questions about benchmark testing and grading. Donna explained the system and answered all questions they had.

This simple act made it possible for teachers to perform benchmark tests where it was difficult before.

Benchmark tests aide in accessing a student's understanding of the educational content. This help the student better prepare for additional tests.
