

THANK
YOU

Thank you Technology Services Staff!

Thank you to Brandon Splawn for supporting our Board Meetings!

Brandon has taken over the duties of supporting our monthly Board meetings. Having a Technician available before, during and after these meetings is critical. Brandon handles this extra role with pride and enthusiasm.

The Board meeting on May 16th ran late. Brandon worked through each issue as they came up and we are very thankful to have his support!

THANK
YOU

Thank you Technology Services Staff!

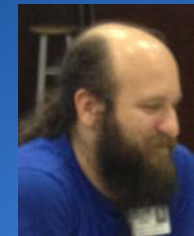

Eddy Quintanilha,
Thank you for being a great technician and a great jokester as well. Lol!
Jose Mendez

I would like to show my appreciation for Richard Kurtz, who came to Cy-Ranch to help me on the day of Spanish AP Testing. We had 117 students testing on laptops at the same time in the multi-purpose gym. Our technology support was needed to assist with any issues that arose during the oral section of the test. Richard showed up early that day and helped with tickets before we were needed in the gym. During the test, he was so knowledgeable and helpful with any questions or concerns that the students and proctors came across. After the test, he stayed to help as we made sure all of the audio recordings would burn successfully to a disc for the proctors. I really appreciated having Richard's help before, during, and after the test. Since there were two of us to tackle technology issues, we were able to help more students in less time to keep them on track. Thank you Richard! Kelsey Crouch

Thank you Geoff Brown for supporting Hemmenway's STAAR testing on Monday for me while I was on vacation!!! Cassandra Slade

THANK
YOU

Thank you Technology Services Staff!

I would like to shout a big "THANK YOU" to MCA for always willing to help. They are a big part of the success of the wireless cutover at the schools. Elizabeth Montez

I wanted to spotlight the help and assistance offered by our Repair Dept. We try to do as much in-house work as possible and only make requests when absolutely necessary. They always share their advice and knowledge when it comes to getting a piece of equipment up and running.

- Alaina Harbin is very instrumental in keeping Cy-Ridge "projecting" a good future to our students. Her ability to work on printers and all other items is extraordinary.
- Doug Baker and Frank Adian are very supportive, offering information and instructions, and always in a friendly and encouraging manner.

Thank you again!!! Susan Pavliska

THANK
YOU

Thank you Technology Services Staff!

Thank you to Samara Rivera-Rangel for her help in sorting out incoming AT&T invoices. I appreciate Samara's organization skills! Katie Hernandez

Jennifer Miller –

Thank you for coordinating a fantastic end of the year technician celebration. Everything from the decorations, pictures, flowers, food, drinks, and technical content was PERFECT. You and your team are amazing. You made all of the technicians feel special, and the meeting was a huge success. Thank you. Frankie Jackson

Josh Zhang and Austen Change –

Thank you for your technical expertise and persistence in the LANDesk conversion. The work is tedious and because we are trying to work through the process, it has taken some trial and error, and rework. Your ability to find creative solutions to speed up the implementation is commendable. Thank you! Frankie Jackson
