

# Trusted Learning Environment

On **Friday, September 8, 2017** **David LaPlante**, Security Specialist, **John Crumbley**, and **Jennifer Miller** met to discuss the district status regarding the Trusted Learning Environment (TLE) application. The TLE application includes 25 best practices that must be in existence and practice for a district to earn the seal. The seal is currently awarded by and sponsored by the Consortium of School Networking (CoSN) organization. The district is currently documenting processes and procedures in order to apply for this prestigious seal.

**The Trusted Learning Environment (TLE) Seal is a mark of distinction for school systems, signaling that they have taken measurable steps to implement practices to help ensure the privacy of student data.**

These twelve districts have earned the TLE Seal for carrying out their commitment to ensure the privacy and security of student data.
